## COVER LETTER

Dear members and friends of the IACP,

We report to you the IACP activities in 2020 and seek your continuous support in the future. The year 2020 has been turbulent and full of surprises. While we adjusted by holding the annual conference and the annual business meeting virtually, we also initiated many activities to serve the communities and to strive for our mission.

First, it is important to maintain communication and engagement with IACP members and friends. In addition to the annual newsletter, we also issue monthly newsletters which give updates on our activities more frequently. Additionally, we rely on the updated IACP website (<http://www.china-planning.org/>) and the IACP WeChat account (IACPforChinaPlanning) to reach out to a broader audience. In March 2020, when COVID-19 became a global pandemic, I issued a letter to share our reflection on IACP's roles in a time of uncertainty. All these communications are essential when in-person contacts are limited.

Second, although COVID forced us to change the format of the annual conference and annual business meeting, these online meetings allowed broader participation in IACP activities. IACP hosted the annual business meeting on November 4 (<http://www.china-planning.org/alpha/2020/12/25/business-meeting-2020/>). The board gave an update on our activities, presented the financial report, announced seven IACP awards, and called for membership. The 14th annual conference was postponed to December 5-13, 2020. During the nine days, we held the opening and closing ceremonies, 9 special sessions, and 53 parallel sessions, which altogether attracted close to 40,000 viewers online. This is the largest IACP annual conference in terms of participation. Please see the conference information here (<http://www.china-planning.org/alpha/2020-conference-information/>).

Third, the current board continues the tradition of facilitating and disseminating China-related research in international journals. In 2020, we organized six special issues in journals of Urban Forestry & Urban Greening, Transportation Research Part D, Housing

## 序言

IACP尊敬的会员和朋友,

我们向您报告IACP在2020年的活动并寻求您的继续支持。

在充满动荡与惊奇的2020年,我们不仅成功举办了线上年会和线上业务会议,并且发起了许多新活动以提供服务,满足我们的使命。

首先,我们需要保持与IACP成员和朋友的沟通。除了年度新闻通讯,我们还发布每月新闻通讯,让会员与朋友了解IACP活动动态。此外,我们依靠新IACP网站(<http://www.china-planning.org/>)和IACP微信公众号(IACPforChinaPlanning)与更多参加者联系。2020年3月,当COVID-19成为全球大流行病时,我写了一封信,分享我们对在不确定时期IACP角色的反思。当我们不能面对面联系的时候,这些沟通联系必不可少。

其次,尽管COVID迫使我们改变了年会和年度业务会议的模式,这些在线会议允许更多人参加到IACP活动中。IACP于11月4日举办了年度业务会议(<http://www.china-planning.org/alpha/2020/12/25/business-meeting-2020/>),理事会总结IACP年度活动,提交财务报告,宣布七个IACP奖项,并呼吁大家成为会员。IACP第14届年会推迟到2020年12月5日至13日。在9天中,我们举行了开幕式和闭幕式,9场特别会议和53场平行会议,总共吸引了近40,000名在线观众。就参加者而言,这是IACP迄今为止规模最大的年会。请在此处查看会议信息(<http://www.china-planning.org/alpha/2020-conference-information/>)。

第三,现任理事会继续促进和传播与中国规划相关的研究。2020年,我们在Urban Forestry & Urban Greening, Transportation Research Part D, Housing Policy Debate, Travel Behaviour and Society, Socio-Ecological Practice Research, and Cities等期刊上组织了六期专刊(<http://www.china-planning.org/alpha/special-issues/>)。我们为“可达

Policy Debate, Travel Behaviour and Society, Socio-Ecological Practice Research, and Cities (<http://www.china-planning.org/alpha/special-issues/>). We held two virtual symposiums based on the special issues of "Planning for Accessibility" and "High-Speed Rail and the Environment".

Fourth, the board initiated new activities for career and research development. For career information, we launched a new webpage (<http://www.china-planning.org/alpha/category/job-announcement/>) to share job announcements, hosted four six virtual job information sessions on urban planning, cohosted two sessions on public policies and administration, and organized three online roundtables where new faculty members shared job search experiences. To advance research, we organized one roundtable of "Grant Application and Tenure Promotion" and arranged two lectures on "How to Prepare a Literature Review" and "How to Propose a Good Research Question". The second lecture event was live broadcasted with more than 10,000 participants. We also co-hosted a semester-long lecture series on Future Cities with Beijing Jiaotong University.

Looking forward, the inaugural IACP Academic Writing Workshop for Junior Urban Scholars, originally scheduled in June 2020, will be held in a hybrid format (Virtual+In-Person) on January 8-16, 2021 (<http://www.china-planning.org/alpha/2020/12/21/writing-workshop-2020/>). The 15th IACP annual conference will be hosted by Nanjing University and is tentatively scheduled for July 2021. Other activities, including special issues and online symposiums, are under development with IACP members and friends.

We feel that we have made concrete efforts to continue the great work of previous IACP boards. I wish to express sincere gratitude to you for your participation in IACP activities, and I hope you will continue supporting our organization. If you have not, consider becoming a member of IACP (<http://www.china-planning.org/alpha/membership/>).

Happy New Year!

性规划”和“高铁与环境”的专刊举行了两次线上座谈会。

第四，我们发起新的活动方式以促进职业发展 and 研究发展。我们启动了一个新网页来分享高校招聘信息(<http://www.china-planning.org/alpha/category/job-announcement/>)，举办了四次规划专业招聘信息会，合办了两场公共政策与管理专业信息会，组织了三个线上圆桌会议请新任教师分享求职经历。为了推进研究，我们组织了“基金申请与升任长聘教授”的圆桌会议，安排了两场关于“如何准备文献综述”和“如何提出好的研究问题”的讲座。超过一万人员收看了有第二场讲座的直播。我们还与北京交通大学共同举办了为期一个学期的关于“未来城市”的系列讲座。

展望未来，最初定于2020年6月召开的IACP“城市研究青年学者学术写作与发表工作坊”将于2021年1月8日至16日以混合形式（线上+线下）举行（<http://www.china-planning.org/alpha/2020/12/21/writing-workshop-2020/>）。2021年IACP第15届年会将由南京大学暂定于2021年7月举行。其他活动，包括特刊和在线研讨会，也正在与IACP成员和朋友一起紧锣密鼓地准备中。

本届理事会感到我们已经作出了切实努力以继续IACP的传统与前理事会的优秀工作。我们衷心感谢您参加IACP活动并希望您继续支持我们的组织。如果您还不是会员，请考虑成为会员(<http://www.china-planning.org/alpha/membership/>)。

The series of lectures have been completed, focusing on in-depth discussions on theories, methods, data, and practice of frontier urban problems. The course is not only to expand students' interest in urban transportation research, but also to help them understand the decision-making process of urban transportation planning, and apply it in their own research and dissertations.

The course is divided into four modules, including theoretical review, common research methods, data acquisition and analysis, practice and application. Each module enables students to master the basic ideas and methods of urban transportation research through specific thematic research and the advantages and limitations of each analysis method. These lectures focus on topics related to urban job-housing relationships, transportation and land use, accessibility and urban rail transit. Research projects discussed in the lecture series are examples for students to understand diverse methodologies, explain the findings, and provide recommendations for urban transportation policies.
