Conference Theme

In 1984, the World Health Organization (WHO) put forward a concept of Healthy City and launched the Healthy City Project, which directly promoted the development and construction of healthy cities on a global scale. Since 2012, the WHO has issued two documents: Indicators for Health in Sustainable Cities and Health indicators for

Sustainable Development Goals, which have officially incorporated the construction of healthy cities into the grand blueprint of the Sustainable Development Goals.

Urban planning has been designated as an important policy tool to promote the construction of healthy cities as early as 1986 in the Ottawa Charter for Health Promotion. The integration of urban planning and the construction of healthy cities not only promotes the practice of healthy cities, but also enriches urban planning theories and research methodologies. The health-value oriented planning has been gradually incorporated into planning and design guidelines, facilitating the implementation of global healthy cities.

In 1994, the Dongcheng District of Beijing and the Jiading District of Shanghai were selected as the pilot cities of Healthy City construction, marking China's official entry into the concrete practice of Healthy City.. With the publication of the Healthy China national strategy in 2017, the idea that Integrating Health into All Policies has become a critical approach to promoting sustainable urbanization and solving urban problems. The continued ravages of the COVID-19 pandemic, in particular, have heightened attention to global public health and sparked in-depth discussions on sustainable and healthy cities. In this context, exploring urban-rural healthy and sustainable development has become the top scientific topic in urban planning.

Urban-rural healthy and sustainable development is the theme of this annual conference. We cordially invite scholars and practitioners, engineers, and government officials in China and around the world to the conference to have academic exchanges and in-depth discussions on urban-rural healthy and sustainable development, carbon peaking and carbon neutrality goals, resilient territorial space and other related issues, and explore the advanced concepts and successful experiences of global urban-rural spatial development, planning and governance in the new context of globalization and regionalization.

我们诚挚地邀请您投稿并参加第十六届国际中国规划学会年会。

会议主题

1984年，世界卫生组织提出“健康城市”概念并发起“健康城市项目”，直接推动了全球范围内健康城市的发展与建设。2012年以来，世界卫生组织先后发布《可持续发展城市的健康指标》和《在可持续发展目标中提倡健康》两个文件，将健康城市建设正式纳入“可持续发展目标”宏伟蓝图。早在1986年的《健康促进握太华宪章》中就已经指出，规划是促进健康城市建设的重要途径之一。规划与健康城市建设的紧密结合，不仅促进了健康城市的理论发展和建设实践，且丰富了健康价值导向的规划理论内涵与研究方法，进而推进全球健康城市建设实践。

1994年，北京市东城区和上海市嘉定区作为健康城市建设试点，标志着中国正式步入健康城市规划建设实践。随着2017年“健康中国”国家战略提出，“将健康融入所有政策”理念成为推进新型城镇化、解决当前“城市病”问题的重要抓手和有效实现途径。近两年，疫情的持续肆虐进一步强化了人们对公共健康问题的高度关注，继而在全球不同区域引发了对经济发展、社会公平、环境保护等问题的深入探讨。在此背景下，如何结合新型城镇化建设，探讨城乡健康与可持续发展路径，成为规划领域持续关注的热点。

本次年会的核心主题是“城乡健康与可持续发展”，诚邀来自中国和世界各地的学者、规划师、工程师和政府管理人员进行学术交流，就健康城乡、可持续发展、双碳目标、韧性国土空间等问题展开深入交流与讨论，探讨在新的全球化与区域化发展语境下，全球城乡空间发展、规划与治理的先进理念与成功经验。

此次会议议题包括：

1. 城乡健康与公共安全
2. 国土空间规划、城乡统筹与区域规划
3. 气候变化与双碳政策
4. 生态环境保护与韧性城市
5. 城市住房与房地产
