COVER LETTER

Dear members and friends of the IACP,

We report to you the IACP activities in 2021 and seek your continuous support in the future. In 2021, the IACP launched several activities to serve the communities and to strive for our mission.

In October 2021, IACP successfully transitioned the leadership of the Board of Directors. The new leadership of the IACP for the years 2021-2023 is made up of five newly elected Board of Directors and eight incumbent Directors. You can find information about the Board of Directors on our website (<http://www.china-planning.org/alpha/boardadvisory/>). As the new Chair of the IACP Board, I sincerely thank the five outgoing Board of Directors (Lingqian Hu, Yiping Fang, ChengHe Guan, Siqi Zheng, and Xiaoguang Wang) for the leadership, hard work, and commitment they provided to the IACP. I am excited to work with the Board members to continue and enhance IACP's achievement in the last 15 years.

Along with our local host the Nanjing University, IACP successfully hosted the 15th Annual Conference virtually on September 10-12, 2021. We held the opening and closing ceremonies, three special sessions, and 57 parallel sessions for three days. More than 300 faculty, researchers, and graduate students attended the conference from more than ten countries around the world. Please see the conference information here (<http://www.china-planning.org/alpha/2021-conference-schedule/>).

IACP organized a writing workshop for junior urban scholars in a hybrid format (virtual + in-person) in the school of Public Policy and Management at the Tsinghua University (China) on January 9-16, 2021. The workshop included nine former and current editors of seven well-read journals in the fields of urban studies and planning, such as Urban Studies, Journal of the American Planning Association, and Journal of Planning Education and Research. Detailed information about this workshop can be found on our website (<http://www.china-planning.org/alpha/2021-writing-workshop-2020/>).
